Project 120 Chicago is a 501(c)3 not-for-profit working in partnership with the Chicago Park District and the community to plan, develop, and carry out improvements that respect, preserve, and renew the character of the landscape as designed by Olmsted, while addressing current and future issues and needs that will promote ecology and community vitality and livability for generations to come.

With a focus on sustainability - social, economic, and environmental, we are developing the framework for The South Parks Conservancy, a permanent organization that will manage and foster the South Parks

in partnership with the public.
